

MAXFLUID LUBRICANTS

"Maximizing your flow, on every voyage and in every plant."

MARINE & INDUSTRIAL LUBRICANT SOLUTIONS

| About Maxfluid

MAXFLUID supplies marine and industrial lubricants that help machinery run cleaner, cooler and longer. The right oil does more than fill a sump; it protects engines and equipment, limits wear and keeps operations on schedule.

We work with ship owners, ship managers, ship chandlers, industrial users and maintenance teams, helping them select suitable grades and keep supply dependable.

| Our Mission & Vision

Our Mission: To supply dependable, fit-for-purpose lubricants and clear technical guidance so that customers can protect their equipment, control operating cost and keep machinery running when it matters.

Our Vision: To be the lubricant partner that marine and industrial operators trust first, known for consistent quality, honest advice and responsive service.

| Our Core Values

1. Quality

We supply lubricants matched to the job, with consistency from one order to the next.

2. Expertise

We help customers choose suitable grades and confirm equipment requirements before they order.

3. Reliability

Customers rely on us for supply and service when machinery performance matters most.

4. Partnership

We build lasting relationships through clear communication and practical solutions.

| Marine & Industrial Portfolio

Engineered for heavy loads, wide temperature swings, long running hours, and harsh environments across vessels and industrial plants.

- **Cylinder Oils:** High-performance TBN grades for 2-stroke crosshead engines.

- **System Oils:** Circulating oils for slow-speed crosshead crankcases.

- **Trunk Piston Engine Oils:** Detergent oils for 4-stroke medium/high speed engines.

- **Multigrade Marine Oils:** Marine Gold 15W-40 (API CI-4) for gensets and auxiliary diesels.

- **Regular & HVI Hydraulics:** MaxHydro HD & HDZ series (ISO VG 15 to 150).

- **Gear Oils:** GearTech S2 G series (ISO VG 68 to 680, CKD).

- **Turbine & Compressor Oils:** Turbex T & MaxFluid Compressor / PAO series.

- **Refrigeration & Greases:** Chill Oil FR (POE) & Max Multipurpose EP series.
